

Linda Mthalande

TOP 10 KZN Shaper

Background and goals

Linda Mthalande began her farming journey in 2020, specialising in livestock production. She aspires to expand her enterprise by incorporating goats and sheep. In the short term, she aims to grow her herd to 100 weaners and explore new market opportunities. Over the next 3 to 5 years, her goal is to acquire additional land and scale her operations significantly.

Challenges

Linda faces key operational challenges, including water shortages and stock theft, which directly impact her productivity. Additionally, she requires improved production infrastructure to support her expansion plans.

Opportunities and support needed

With access to ample land, Linda sees strong growth potential in expanding her herd and diversifying into other livestock. To safeguard her investments and enhance productivity, she hopes to adopt new technologies, such as livestock insurance and improved security measures. Training in financial management and animal health practices would also equip her with the skills needed to scale her business successfully.
